

Rules of the Doubles tennis tournament

Matches are played on two sets won.

Each set is played by whoever wins four games first (advantage is not played). If the set is 3:3, whichever pair of players wins the next game wins the set. If the game is tied 40:40, whichever pair of players gets a point first wins the game (advantage is not played). If the result is 40:40, the one serving gives the other side the opportunity to choose where to serve. If it is 1:1 in the sets, a TIE BREAK is played, which pair of players reaches 10 points first (in the case of 9:9, whoever gets a point first has also won the match)

The finals are played on two sets won, which pair wins 6 games first. If it's 1:1 in the sets, TIE BREAK is played, whoever reaches 10 points first (advantage is not played)

Pravila teniskog turnira parova

Igraju se mečevi na dva dobivena seta.

Svaki set se igra tko prvi dobije 4 gema (ne igra se prednost). Ako je u setu 3:3, koji par igrača dobije sljedeći gem, dobio je set. Ukoliko je 1:1 u setovima, igra se TIE BREAK koji par igrača prvi dođe do 10 poena (u slučaju 9:9 tko prvi dobije poen dobio je i meč)

Finale se igra na dva dobivena seta, koji par prvi dobije 6 gemova. Ukoliko je 1:1 u setovima, igra se TIE BREAK tko prvi do 10 poena (ne igra se prednost)
